Summary

Certified EMT, fluent in English and Spanish, has worked in medical data and medical finance as well as IT at a medical school. I love art, cooking, baking, medical applications of technology, automation, AI, and I hope to improve lives through my work.

Work Experience

Software Engineer, CITY Furniture

01/2022 – Present

- Developed and maintained e-commerce platform features using Next.js and Node.js microservices architecture. Deployed services on AWS infrastructure. Wrote unit and integration tests with Jest. Monitored application performance and troubleshoot issues using New Relic.

Software Engineer, Rockval, Inc

07/2021 – 09/2021

- Single-handedly developed cross-platform mobile app using React Native and Expo. Integrated Google Maps API with property pinning functionality. Implemented Redux for state management and styled-components for UI.

Non-relevant roles • 01/2017 – 06/2021

Red Zone Specialist, Apple

07/2015 – 12/2016

- Provided support, training and troubleshooting for customers' existing products and applications, as well as recommending new products that fit their technical requirements.

Non-relevant roles • 11/2013 – 06/2015

Computer User Support Specialist, Facultad de Ciencias Médicas Julio Trigo

10/2008 – 10/2013

- Supervised the performance, configuration, upgrade and repair of equipment and systems for employee and student use. Trained employees and students on how to use their devices and Microsoft Office applications.
